Side bracing and anti-floatation feet give good anchoring in concrete to help achieve straight installations

Bottom outlet allows connection to both 90 & 100mm pipe

Outlets can be solvent cemented

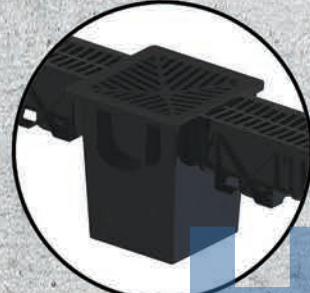

Clearly marked with CUT HERE guides to allow channel to be cut at 100mm increments

Patented support bracket strengthens and holds channels together, minimising external warping patent pending

Female adaptors allow channel to be connected to other components and offcuts

Channel 130 Pit with built in channel connectors to create T, X or straightline junctions

Plastic grates can be easily removed for cleaning and maintenance
