PRODUCT OVERVIEW

Sereno 10mm frameless glass screen sets are the ultimate customisable shower solution. With unlimited sizes, upgrade options and adaptability, Sereno screen sets can fit to any space imaginable.

Unique to Sereno Sliding Doors are the concealed rollers, creating a seamless and subtle shape without compromising the functionality. Sereno can be paired on any floor surface, as well as tiled walls or acrylic liners - combine this with a full install kit and complete measure, supply & install options - Sereno is the perfect answer to a difficult or custom space.

10mm toughened safety glass ensures a secure, safe and beautiful shower, while still given the illusion of a clean, open space.

IS THIS SHOWER FOR ME?

Sereno 10mm frameless glass showers are the perfect option for you if you desire a custom shower, or have a difficult space in which to fit a shower in. Sereno showers are a modular design, meaning you can create your perfect shower panel by panel - building from the ground up. Sereno screens and doors are adaptable to multiple styles of wall, floor and bathroom layouts so is the optimal solution for your renovations. Crest specialises in custom and specific designs, and paired with the Sereno's flexible panel sizes and door styles, you have the greatest solution to a unique, personalised shower. The Sereno creates added space and light so can suit any bathroom design and accentuate your hardware choices, making this shower the ultimate in customisation.
