

**NEW RELEASE - 1st June 2014**

We are very excited to announce a new service available to you and your customers.

**From 1st June, we will offer the option to apply a Diamond Fusion easyCLEAN treatment to Athena showers before they leave the factory.**

This service takes the hassle out of arranging for the treatment to be applied once the shower has been installed.

**WHAT IS DIAMOND FUSION?**

Put simply, Diamond Fusion is a permanent treatment designed to seal and protect glass. Treated surfaces become water repellent as well as scratch, stain and impact resistant.

Diamond Fusion easyCLEAN uses the world's leading Nano Technology products from "Diamond-Fusion International". Nanoscale technologies are the development and use of devices that have a size of only a few nanometers.

**HOW DOES IT WORK?**

Glass is not as smooth as you might think – it is actually quite a porous surface which makes an ideal setting for soap residue, dirt and mineral build ups to reside which, over time can result in a cloudy or noticeably dull appearance.

Diamond Fusion Easy Clean works in two stages to protect your glass from these impurities.

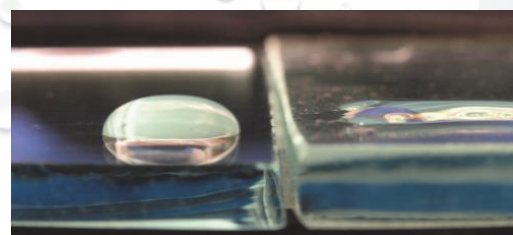

The first stage "Fills in" the rough, porous surface of the glass and the second stage "Caps" the previous layer with an optically clear material which makes the surface significantly easier to clean and resistant to weathering.

**LIFETIME WARRANTY**

Diamond Fusion easyCLEAN offers an instant 1 year warranty.

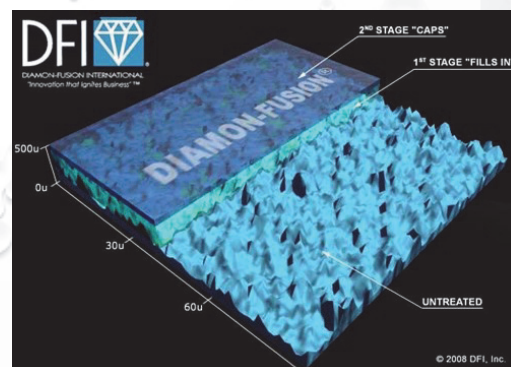

By a simple on-line registration customers can extend this to a LIFETIME WARRANTY.

Diamond Fusion is the only supplier to offer a factory supported LIFETIME WARRANTY to customers, which is backed by a NZ wide agent network.

Treated Glass

Untreated Glass

**The Diamond Fusion easyCLEAN treatment is available on Lifestyle, Allora, Charisma and Seville showers as well as bath swing panels .**

Any questions? Please contact Customer Services or your local Territory Manager.
